# FISHER SAILS WINS AROUND THE COUNTRY

## Winning Performance

Dependable leading edge performance. That's what fast sails are all about. In 1989 the consistent performance of Fisher Sails has helped our customers win an incredible number of regattas around the country. Just look at how our sails have performed this year.

We're building on our track record. Past performance highlights include placing 1st and 2nd in the '88 Nationals, finishing 1st and 3rd in the '88 Midwinters East, winning the '87 Nationals, and placing 2nd in the '86 Nationals.

## Class Commitment

But there's more to being a good sailmaker than just building fast sails. We believe personal service and a commitment to the Thistle Class are just as important. That's why we're available to conduct seminars for your fleet or club. And should you ever have a question, just give us a call. We're always anxious to help any way we can!

## We Never Stop Working

We're always testing our sails against new designs to make sure we maintain our leading edge. This fall we're conducting a special Thistle tune-up session where we'll concentrate on boat speed and boat handling. The session is part of our ongoing research and development program.

We've picked up a second boat and we'll be working all fall and winter to learn what it is that

makes a Thistle go fast. If you're interested in joining us, grab your dry suit and give us a call.

## Dedication

Nobody works harder than Fisher Sails to build the fastest Thistle sails available. Give Steve or Greg a call at the loft. We want to be your personal sailmaker.
